

CASE STUDY // LOCAL SERVICES

Comfort Moving Chicago

Ad creative, Meta ads, influencer partnerships, custom CRM infrastructure, and SEO working as one direct-response growth system.

EARLY RESULT

16x ROAS

in the first two months

01 The Growth Problem

Comfort Moving needed more than a prettier website. The company needed a dependable inbound system in one of Chicago's most competitive local service categories.

- Word-of-mouth and flyers created some momentum, but they were inconsistent and hard to forecast.
- Local search visibility needed to match how quote-ready Chicago customers actually search.
- Leads needed a faster path from inquiry to quote, contract, payment, review request, and booked move.

Core shift

**From scattered
demand**

**to owned
acquisition.**

02 The Connected System

A connected growth system converted attention into booked work.

SEO

Capture high-intent Chicago moving searches through service and neighborhood structure.

Ad Creative

Produce photo and video assets that make the company credible before the first call.

Meta Ads

Turn creative into measurable inbound demand with campaign management and testing.

Influencers

Multiply reach with partner content that gives paid distribution more trust to amplify.

Custom CRM

Centralize intake, contracts, payments, analytics, and follow-up in one operating layer.

Automation

Trigger review requests and reduce lead leakage after inquiries and completed jobs.

03 Creative + Reach Multipliers

Paid social performance needed more than media buying. Comfort Moving needed assets that looked real, local, useful, and trustworthy.

- Photo and video assets were created for response, not vanity.
- Influencer partnerships helped multiply reach and added third-party trust.
- Meta campaigns used creative testing to find messages that converted attention into quote-ready leads.

04 CRM Built To Scale

The CRM was built as an operating layer for the business: flexible enough for current workflows and structured enough to scale as lead volume, crews, and service areas expanded.

Lead + Web Intake

Forms, quote requests, and Meta leads routed into one pipeline.

Payments + Contracts

Payment and contract steps connected to each record.

Review Follow-Ups

Post-job requests created more trust signals.

Visualized Analytics

Pipeline and source data made easier to act on.

05 SEO And Conversion Path

- Service and location pages were reorganized around local search intent.
- Internal linking and page structure created clearer paths for quote-ready visitors.
- Website, ads, and CRM intake worked together so demand was easier to capture and follow up with.

The screenshot displays the homepage of 'CHICAGO LOCAL MOVERS'. The navigation bar includes links for HOME, SERVICES, MOVING TIPS, FAQ, ABOUT, and WE ♥ CHICAGO. A contact number (773) 236-1724 and a 'GET QUOTE' button are in the top right. A banner below the navigation reads 'YOUR NEIGHBORHOOD EXPERTS. MOVING CHICAGO, ONE HAPPY CUSTOMER AT A TIME.' The main content area features the company name, a list of services (APARTMENTS • CONDOS • HOMES • LAST-MINUTE MOVES), and a description of their services. Three key statistics are highlighted: 139+ 5-Star Reviews, 4 Years Local, and 100% Licensed. Two buttons are present: 'GET FREE QUOTE NOW' and 'CALL (773) 236-1724'. A 'CUSTOMER REVIEWS' section shows a 5-star review from Liz Moretti and a review from Wren Martyn. A 'FREE QUOTE FORM' is on the right, with fields for Full Name, Phone Number, Email, Date & Time, Moving From, Moving To, Type of Service, Size of Move, How did you hear about us?, and a Notes section. A 'GET YOUR FREE QUOTE' button is at the bottom of the form.

06 Execution Timeline

Phase 1

Reframed acquisition

Moved beyond inconsistent referrals and flyers.

Phase 3

Connected operations

CRM workflows for forms, quotes, and follow-up.

Phase 2

Rebuilt around intent

Structured pages around local SEO and quote paths.

Phase 4

Scaled demand

Creative, influencers, and Meta ads fed the pipeline.

07 Outcomes

PAID MEDIA PERFORMANCE

16x ROAS

Meta ads produced 16x ROAS within the first two months.

EXPANDED REACH

Influencer lift

Influencer partnerships multiplied creative reach and created more trust-building content to amplify.

QUALIFIED INBOUND

Cleaner pipeline

SEO, web forms, and Meta leads were easier to capture, organize, and follow up with.

CONVERSION INFRASTRUCTURE

Centralized backend

A smoother path from inquiry to quote, contract, payment, review request, and booked move.

SYSTEM SYNTHESIS

A stronger local search presence, better creative, wider reach, Meta ads management, and a scalable CRM worked together to make demand easier to generate, capture, track, and convert.
